White Fragility—Robin DiAngelo 2018-06-26 The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’” (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines these counterproductive reactions including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In New Rules for the New Economy, Kelly presents ten fundamental principles of the connected economy that invert the traditional wisdom of the industrial world. Succinct and memorable, New Rules explains why these powerful laws are already hardwired into the new economy, and how they play out in all kinds of business—both low and high tech—all over the world. Meeting Wise—Kathryn Parker Boudett 2014-08-01 This book, by two editors of Data Wise: A Step-by-Step Guide to Using Assessment Results to Improve Teaching and Learning, attempts to bring about a fundamental shift in how educators think about the meetings we attend. They make the case that these gatherings are potentially the most important venue where adult and organizational learning can take place in schools, and that making more effective use of this time is the key to increasing student achievement. In Meeting Wise, the authors show why meeting planning is a high-leverage strategy for changing how people work together in the service of school improvement. To this end, they have created a meeting-planning “checklist” to develop a common language for discussing and improving the quality of meetings. In addition, they provide guidelines for readers on "wise facilitating" and "wise participating," and also include "top tips" and common dilemmas. Simple, succinct, and practical, Meeting Wise is designed to be read and applied at every level of the educational enterprise: district leadership meetings with central office staff, charter-school management summits, principals’ meetings with teachers, professional development sessions, teacher-team meetings, and even teachers’ meetings with parents and students.
